

## Mr. Kruczinski's Expectations:

- RESPECT
  - Treat your fellow classmates and your teacher with respect.
  - Show respect to objects not belonging to you (i.e., desks, etc.)
  - Do not interrupt the learning of others.
- PARTICIPATION
  - Active participation is expected (i.e. answer questions, participating in classroom discussions)
  - Mathematics is not a spectator sport; you will need to pay attention to my teaching, take notes, and participate in class discussions to ensure understanding.
  - If you have questions I encourage you to interrupt me (as long as it is done respectfully) so that I can address the question. Chances are that others in the class have the same question!
  - When given class time to work on homework, I expect you to be working on the assignment.
- TARDY POLICY
  - Be in your seat with materials out when the bell rings.
  - Bring paper, pencil, textbook, and a **calculator** to class EVERYDAY.
- HOMEWORK POLICY
  - Homework will be checked or collected for completion points at the beginning of each class period.
  - The most important part of homework is that you attempt it. If you did not understand a problem, the beginning of class will be used to review problems.
  - ***From time to time***, I will choose 3-5 questions from the homework assignment to grade for accuracy.
